EXPERIENCE

IT HELP DESK SUPPORT/PRODUCT DEV

Nexus Impact Services (Formerly CAW Impact Services)

4/23 - Present

This is a startup company so my job extends far beyond my job title.

My responsibilities include:

- Configuring new software
- Writing training manuals for company software
- Creating production software and APIs
- Deploying custom software to Amazon Web Services (AWS)
- Managing/Designing/Updating Wordpress site
- Troubleshooting software, hardware and network problems

REFEREE

Potomac Sports Officials Association

2021 - 2023

This required me to make quick, accurate decisions as well as effectively communicate them.
